AWFUL TORTURES ARE INFLICTED ON COOLIES

Rand Mine-Owners Accused of Cruel Outrages to Make Chinks Work.

JOHANNESBURG, Oct. 1.-By degrees the truth about the Rand coolles is coming to light. A condition of affairs has been revealed apparently impossible under a state claiming to be civilized. It has been brought out that the Chinese are systematically subjected to a diobolical system of flogging. The number of cases averages forty-two per day, including Sundays.

Other Forms Introduced.

This is only one of many of the revolting forms of punishment resorted to by the mine-owners in their endeavors to get more work out of their unfortunate vic-When, owing to the discussion in Parliament and the impossibility of further denying that flogging did take place, It was decided to moderate the practice other and more ingenious methods of tor-ture found efficacious in China were in-troduced. Even These Don't Satisfy.

In other cases they were tied by the wrists to a beam nine feet high, so that they were obliged to stand on tiptoe or have their arms wrenched from their sockets. In other instances they were handcuffed over a beam so placed that they could neither stand nor sit. The students came here as the wards of the Government to receive their education so that they could serve as teachers for their own countrymen.

The State Normal authorities look upon the action of the barbers as an affront to the Government as well as to the school and the Filipinos. It is probable that the department at Washington will be notlified.

SKIRTED BOATMAN DROWNS

Eccentric Character Is Submerged by Apparel

PHILADELPHIA, Pa., Oct. 1.—Valentine Folks, an aged ferryman, known for many miles on the Schuylkill river on account of his eccentricities, was drowned at Shawmont by the overturning of the boat that he had paddled for a generation.

Fulby death was due to the fact that when his boat upset he was sittred in woman's clothing, the practice of waring female garmonts being one of his many peculiarities. On account of it he was called "Rosy Glen." Entangled in his woman's clothing, he sank, although he was a good swimmer, when the boat capsized.

State Is Charged With Twenty-Eight in Departmental Positions.

REASONS OFFERED FOR APPARENT INEQUALITIES

District of Columbia Has Lion's Share Because Citizens Fit Themselves.

pecial to The Tribune WASHINGTON, Oct. 1 .- John T. Doyle, secretary of the Civil Service commission, has prepared a list of the citizens of Utah now holding office in the civil service of the Government. The list was prepared at the request of The Tribune correspondent. In transmitting the list Secretary Doyle says:

Mr. Doyle's Letter.

In accordance with your request, I send you herewith a list of persons appointed to positions in the departmental service in Washirgton, D. C., who are charged to the apportionment of the State of Utah. This list shows the name of the person, the department in which criginally appointed, kind of examination from which appointed, date appointed, and the county of which the person was a legal resident at the time of application for examination.

Twenty-Eight Charged to Utah.

You will observe there are twenty-eight appointments charged to the State of Utah. Since July 1, 125; the States have been credited with all separations from the apportioned service, and the number (25) is the net number remaining charged to Utah. The apportionment is based on the eccisus of 1900, and one appointment is charged to each 19,00 inhabitants. Seventien States and Territories have received a less share of appointments than Utah, while thirty-six have received a larger share.

The clippings quoted by Secretary Doyle are from the annual report of the Civil Service commission. They are intended to explain the apparent inequality of the apportionment:

Touches Apparent Inequality.

Touches Apparent Inequality.

Applicants are required to state under eath the facts as to their legal residence, and to furnish the certificate of a county officer as corroborative evidence. Cases of fraudulent claims as to legal residence are infrequent.

A mistaken impression exists, in view of the inequalities in the distribution of offices at Washinston, that the requirements as to especially a strictly observed. The act, however, only requires the apportionment are not strictly observed. The act, however, only requires the apportionment of appointments to the classified service through examination transfer, or reinstakenent, and of the Easto employees now in the departmental service in this manner. That is check has been out upon the misting of an excessive number of appointments from Washington and the near-to States, is shown by the fact that while 22 per cent of all gasifients in Washington are occupied by legal residents of the District of Columbia. Maryland and Virginia, under the apportionment residents of the District and of these two States secured only is per cent of the total number of appointments.

But with every effort to enforce the letter and the spirit of the law it has been impossible to prevent the District of Columbia from evering name than the small share of appointments to which it is cuttiled on the axis of population. This is due to the following causes:

There is naturally a hoener interest in Government positions anomal persons residing at he seat of Government, and greater effort in their part to accurate these qualifications which are most in demand.

Take Greater Interest.

Take Greater Interest.

Stipulate New Pastor Is Not to Install Manual Training Adjuncts.

CHICAGO, Oct. 1.-After agreeing not to establish a blacksmith shop and manual training establishment in connection with the fashionable Lake Forest Presbyterian church, the Rev. W. H. Boyle, pas-ter of the Church of Hope, St. Paul, Minn, was last night formally called to the pulpit of the north shore congrega-

Dr. Boyle, who has become famous for his institutional church in St. Paul, where he joined the teaching of the principles of Christianity to his flock with directing them in manual labor as well, has been summoned to Lake Forest to succeed the Rev. J. G. K. McClure, who has accepted the presidency of the McCormick Theological geminary.

To Abandon Bizarre Methods.

While the members of the aristocratic congregation were unanimous in their desire to have Dr. Boyle preach from their pulpit, it was only after he had agreed not to put into practice in Lake Forest all the bizarre religious methods he uses in St. Paul that he was called.

In connection with his church there he has a blacksmith shop, gymnasium, manual training school and social settlement. True Christian manhood he believes is best developed by hard physical labor. He himself takes his turn daily at the forge.

The call of Dr. Boyle last night was made on recommendation of a committee of seven members of the church who visited the St. Paul pastor to "look him ever." The committee was headed by Prof. John J. Halsey of the Lake Forest university, and his report last night, which spoke of Dr. Boyle as a "good mixer, manly, structive and virile." was nixer, manly, attractive and virile," was
